

Enduro Class 60™ Backroom

With the inclusion of complete back room support components, the Enduro Class 60™ is **easy to install**. The Machine Control Module of the Enduro 60 Backroom pulls everything together. It houses and integrates all of the support and control equipment, plumbing and valves, chemical metering and utility distribution into an orderly and **user-friendly** platform for the car wash attendant. The need for separate hydraulic, electrical, chemical and pneumatic system designs is eliminated, which helps reduce architect and contractor billable hours, **saving you time and money**.

The Enduro Class 60™ Backroom makes it easy to:

- Adjust chemicals, hydraulics and pneumatics at the touch of a button
- Keep controls dry in one accessible location
- Minimize chemical expense through efficient delivery of the soap to the surface of the vehicle
- Use reclaim or fresh water based on local requirements
- Operate your wash and generate income faster

Enduro Class 60™ Specs

Local Service and Support

Belanger's comprehensive service and support give you peace of mind with your purchase. We stand behind our equipment with the most responsive service available through our nationwide Value Added Reseller (VAR) network. Our VARs are factory trained and certified installers and service technicians whose response times can be measured in hours, not days. These professionals are geared to respond to the "real world" service needs of our customers at any time.

SCALED to **FIT**
FIT to **CLEAN**

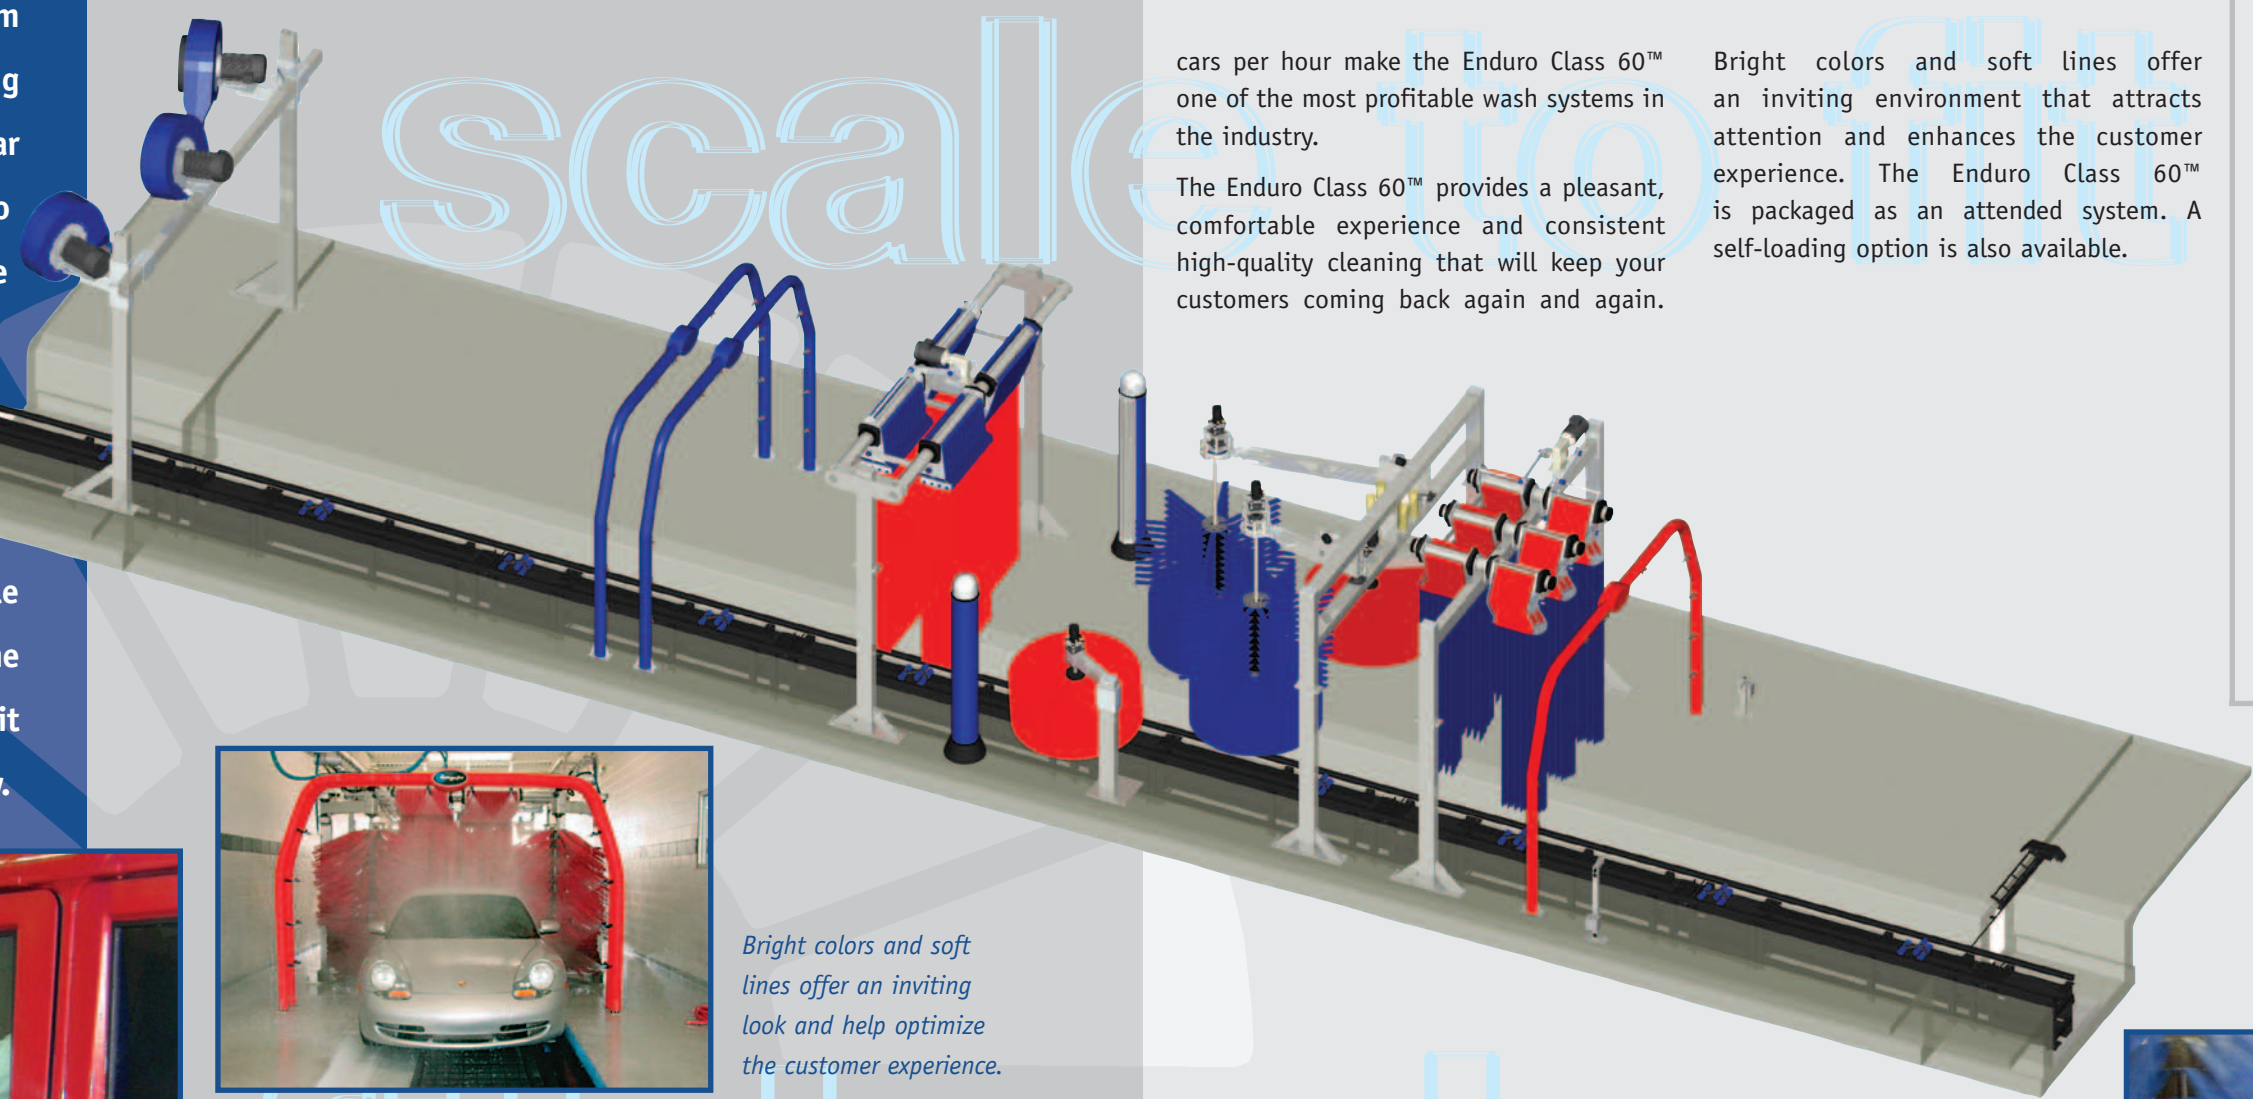

Part of the Belanger Wave Car Wash System, the **Enduro Class 60™** offers the perfect solution for both entrepreneurs looking for an economical entry into the retail soft cloth car wash market and those who wish to add an additional profit center to a new or existing facility.

The Enduro Class 60™ includes four powerful cleaning components in a compact, conveyerized format. The system's innovative design gives you the flexibility required to meet the most

demanding site requirements. No matter how small the package, the Enduro Class 60™ gives you the power and versatility you need for big time success.

Constructed with only the highest grade of materials, like aircraft-grade aluminum, high-density plastics and state-of-the-art electronics, Belanger wash systems resist breakage and keep operating costs low. Minimal maintenance and near-zero downtime combined with the ability to wash 50-80

Power-up and drive profits with the **Enduro Class 60™** from Belanger. This versatile system delivers maximum cleaning power in a flexible soft cloth car wash system. Built to fit into the smallest wash bays, the **Enduro Class 60™** features the same smart design and rugged gear found in all our vehicle wash systems. With its uniquely affordable entry point and long life, the **Enduro Class 60™** is a great fit for any new or existing facility.

All Belanger components are built to withstand rigorous use day in and day out. Optional 50hp AirCannon shown.

cars per hour make the Enduro Class 60™ one of the most profitable wash systems in the industry.

Bright colors and soft lines offer an inviting look and help optimize the customer experience.

The Enduro Class 60™ is engineered to give a consistent, high quality wash every time.

The Enduro Class 60™ is available as a self-loading system.

The Belanger Wave Car Wash Systems lead the way in the soft cloth wash market.

Founded in 1969, Belanger, Inc. has long been respected as an innovator in car wash manufacturing. Belanger led the industry in pioneering the first equipment designed specifically for a soft cloth car wash and, more recently, the development of our exclusive soft cloth system, the Belanger Wave Car Wash System. Along the way, we have earned the reputation of being the most customer-focused, premier supplier of high-quality car wash equipment in the industry.

With approximately 100 patents to our name, our mission is to design, manufacture, sell and service vehicle wash systems that make our customers' lives easier and their businesses more profitable. We invest in research and development initiatives every year. When you buy Belanger products, you buy the company behind the name, too.

Color-Safe Confidence

Belanger Car Wash Systems are OEM approved for use on all vehicle colors and finishes, which means you can rest assured that you're providing your customers with the best service and protection for their vehicles.
